

CCS is dedicated to being the most diversified construction company in Northern California, hence the name Comprehensive Construction Services. The company is built based on four separate divisions: General Engineering Contractors / Excavation, General Building Contractors/ Construction, Drafting and Design and our Green / Energy Efficient divisions. CCS does new construction for residential and commercial projects, tenant improvement, additions and ground up construction. CCS provides services in many areas, but one area we do not undertake is smaller scale (bathroom, kitchen, room division, etc.) standalone remodeling, we do however undertake extensive remodels in conjunction with additions and full house retrofits. CCS has been providing quality services since 1990.

CORE COMPETENCIES

Our service departments are divided into four areas of expertise:

- ✓ General Engineering Contractors/Excavation
- ✓ General Building Contractors/Construction
- ✓ Drafting and Design
- ✓ Green / Energy Efficient
